

Pandoc-theoremnos Demo

Definition 1. *This is my definition of good.*

Theorem 1 (Pythagorean theorem). *For a right triangle, if c denotes the length of the hypotenuse and a and b denote the lengths of the other two sides, we have*

$$a^2 + b^2 = c^2$$

Theorem 1 is very popular and is unrelated to definition 1.

And this is a normal definition list:

Day When the sun is above the horizon.

Night When it is not day.
